Started on	Friday, 13 September 2024, 3:28 PM
State	Finished
Completed on	Friday, 13 September 2024, 3:35 PM
Time taken	7 mins 37 secs
Marks	16.00/16.00
Grade	**100.00** out of 100.00
Name	DHIRU BHAI 730423104017

Question 1

Correct

Mark 1.00 out of 1.00

A function that has no partial functional dependencies is in _____ form :

- A. 3NF
- B. 2NF ✔
- C. 4NF
- D. BCNF

The correct answer is:
2NF

Question 2

Correct

Mark 1.00 out of 1.00

Tables in second normal form (2NF):

- A. Eliminate all hidden dependencies ✔
- B. Eliminate the possibility of a insertion anomalies
- C. Have a composite key
- D. Have all non key fields depend on the whole primary key

The correct answer is:
Eliminate all hidden dependencies

Question 3

Correct

Mark 1.00 out of 1.00

A relation is in 2NF if:

- A. All the values of non-key attributes are dependent fully on the candidate key.
- B. Any non-key attribute that are dependent on only part of the candidate key should be moved to another relation where the partial key is the actual full key.
- C. It must be already in the 1NF.
- D. All of the above. ✔

The correct answer is:
All of the above.

Question 4

Correct

Mark 1.00 out of 1.00

The concept in normalization of relations which is based on the full functional dependency is classified as

- A. fourth normal form
- B. third normal form
- C. first normal form
- D. second normal form ✔

The correct answer is:
second normal form

Question 5

Correct

Mark 1.00 out of 1.00

Which functional dependency types is/are not present in following dependencies?
StaffNo, BranchNo -> StaffName, BranchName, Position, DOB
StaffNo -> StaffName, Position, DOB
BranchNo -> BranchName

- A. Full functional dependency
- B. Partial functional dependency
- C. Transitive functional dependency ✔
- D. Both B and C

The correct answer is:
Transitive functional dependency

Question 6

Correct

Mark 1.00 out of 1.00

The database design prevents some data from being stored due to _____.

- A. Deletion anomalies
- B. Insertion anomalies ✔
- C. Update anomalies
- D. Selection anomalies

The correct answer is:
Insertion anomalies

Question 7

Correct

Mark 1.00 out of 1.00

Considering the functional dependency, the one in which removal of some attributes does not affect dependency is called

- A. full functional dependency
- B. partial dependency ✔
- C. prime functional dependency
- D. transitive dependency

The correct answer is:
partial dependency

Question 8

Correct

Mark 1.00 out of 1.00

A functional dependency is a relationship between or among

- A. Entities
- B. Rows
- C. Attributes ✔
- D. Tables

The correct answer is:
Attributes

Question 9

Correct

Mark 1.00 out of 1.00

The normalization form which is based on the transitive dependency is classified as

- A. first normal form
- B. second normal form
- C. fourth normal form
- D. third normal form ✔

The correct answer is:
third normal form

Question 10

Correct

Mark 1.00 out of 1.00

Which-one ofthe following statements about normal forms is FALSE?

- A. BCNF is stricter than 3 NF
- B. Lossless, dependency -preserving decomposition into 3 NF is always possible
- C. Loss less, dependency – preserving decomposition into BCNF is always possible ✔
- D. Any relation with two attributes is BCNF

The correct answer is:
Loss less, dependency – preserving decomposition into BCNF is always possible

Question 11

Correct

Mark 1.00 out of 1.00

The process of analyzing relation schemas to achieve minimal redundancy and insertion or update anomalies is classified as

- A. normalization of data ✔
- B. denomination of data
- C. isolation of data
- D. de-normalization of data

The correct answer is:
normalization of data

Question 12

Correct

Mark 1.00 out of 1.00

Third normal form is based on the concept of _____

- A. Closure Dependency
- B. Transitive Dependency ✔
- C. Normal Dependency
- D. Functional Dependency

The correct answer is:
Transitive Dependency

Question 13

Correct

Mark 1.00 out of 1.00

Relations produced from an E-R model will always be in:

- A. First normal form
- B. Second normal form
- C. Third normal form ✔
- D. Fourth normal form

The correct answer is:
Third normal form

Question 14

Correct

Mark 1.00 out of 1.00

In the _____ normal form, a composite attribute is converted to individual attributes.

- A. First ✔
- B. Second
- C. Third
- D. Fourth

The correct answer is:
First

Question 15

Correct

Mark 1.00 out of 1.00

The normal form which only includes indivisible values or single atomic values is classified as

- A. third normal form
- B. first normal form ✔
- C. second normal form
- D. fourth normal form

The correct answer is:
first normal form

Question 16

Correct

Mark 1.00 out of 1.00

Third normal form is inadequate in situations where the relation :

- A. has multiple candidate keys
- B. has candidate keys that are composite
- C. has overlapped candidate keys
- D. none of the above ✔

The correct answer is:
none of the above
