Question 1

Correct

Mark 1.00 out of 1.00

Which one of the following is used to define the structure of the relation, deleting relations and relating schemas?

- A. DML(Data Manipulation Langauge)
- B. DDL(Data Definition Langauge) ✔
- C. Query
- D. Relational Schema

The correct answer is:
DDL(Data Definition Langauge)

Question 2

Correct

Mark 1.00 out of 1.00

Which one of the following provides the ability to query information from the database and to insert tuples into, delete tuples from, and modify tuples in the database?

- A. DML(Data Manipulation Langauge) ✔
- B. DDL(Data Definition Langauge)
- C. Query
- D. Relational Schema

The correct answer is:
DML(Data Manipulation Langauge)

Question 3

Correct

Mark 1.00 out of 1.00

What type of statement is this?

CREATE TABLE employee (name VARCHAR, id INTEGER);

- A. DML
- B. DDL ✔
- C. View
- D. Integrity constraint

The correct answer is:
DDL

Question 4

Correct

Mark 1.00 out of 1.00

What type of statement is this?

SELECT * FROM employee;

- A. DDL
- B. DML ✔
- C. View
- D. Integrity constraint

The correct answer is:
DML

Question 5

Correct

Mark 1.00 out of 1.00

The basic data type char(n) is a ____ length character string and varchar(n) is ____ length character.

- A. Fixed, equal
- B. Equal, variable
- C. Fixed, variable ✔
- D. Variable, equal

The correct answer is:
Fixed, variable

Question 6

Correct

Mark 1.00 out of 1.00

An attribute A of datatype varchar(20) has the value "Avi". The attribute B of datatype char(20) has value "Reed". Here, number of spaces allocated for attribute A is _____ and attribute B is _____.

- A. 3, 20 ✔
- B. 20, 4
- C. 20, 20
- D. 3, 4

The correct answer is:
3, 20

Question 7

Correct

Mark 1.00 out of 1.00

To remove a relation from an SQL database, we use the _____ command.

- A. Delete
- B. Purge
- C. Remove
- D. Drop table ✔

The correct answer is:
Drop table

Question 8

Correct

Mark 1.00 out of 1.00

DELETE FROM r; //r - relation
This command performs which of the following action?

- A. Remove relation
- B. Clear relation entries ✔
- C. Delete fields
- D. Delete rows

The correct answer is:
Clear relation entries

Question 9

Correct

Mark 1.00 out of 1.00

INSERT INTO instructor VALUES (10211, 'Smith', 'Biology', 66000);

What type of statement is this?

- A. Query
- B. DML ✔
- C. Relational
- D. DDL

The correct answer is:
DML

Question 10

Correct

Mark 1.00 out of 1.00

Which of these query will display the table given below?

Name
Annie
Bob
Callie
Derek

- A. Select employee from name;
- B. Select name;
- C. Select name from employee; ✔
- D. Select employee;

The correct answer is:
Select name from employee;

Question 11

Correct

Mark 1.00 out of 1.00

SELECT * FROM employee WHERE salary>10000 AND dept_id=101;
Which of the following fields are displayed as output?

- A. Salary, dept_id
- B. Employee
- C. Salary
- D. All the field of employee relation ✔

The correct answer is:
All the field of employee relation

Question 12

Correct

Mark 1.00 out of 1.00

Which of the following EMPLOYEE_ID will be displayed for the given query?

EMPLOYEE_ID	NAME	SALARY
1001	Annie	6000
1009	Ross	4500
1018	Zeith	7000

SELECT * FROM EMPLOYEE WHERE EMPLOYEE_ID>1009;

- A. 1009, 1001, 1018
- B. 1009, 1018
- C.
  1009, 1001, 1018

  1009, 1018

  1001
- D. 1018 ✔

The correct answer is:
1018

Question 13

Correct

Mark 1.00 out of 1.00

Which of the following statements contains an error?

A. Select * from emp where empid = 10003;

B. Select empid from emp where empid = 10006;

C. Select empid from emp;

D. Select empid where empid = 1009 and lastname = 'GELLER'; ✔

The correct answer is:
Select empid where empid = 1009 and lastname = 'GELLER';

Question 14

Correct

Mark 1.00 out of 1.00

In the given query which of the keyword has to be inserted?

INSERT INTO employee ____ (1002,Joey,2000);

A. Table

B. values ✔

C. Relation

D. Field

The correct answer is:
values

Question 15

Correct

Mark 1.00 out of 1.00

In the SQL given below there is an error. Identify the error.

SELECT * FROM employee WHERE dept_name="Comp Sci";

- A. Dept_name
- B. Employee
- C. "Comp Sci" ✔
- D. From

The correct answer is:
"Comp Sci"

Question 16

Correct

Mark 1.00 out of 1.00

Dates must be specified in the format

- A. mm/dd/yy
- B. yyyy/mm/dd ✔
- C. dd/mm/yy
- D. yy/dd/mm

The correct answer is:
yyyy/mm/dd

Question 17

Correct

Mark 1.00 out of 1.00

Which of the following is the original purpose of SQL?

- A. To specify the syntax and semantics of SQL data definition language
- B. To specify the syntax and semantics of SQL manipulation language
- C. To define the data structures
- D. All of the mentioned ✔

The correct answer is:
All of the mentioned

Question 18

Correct

Mark 1.00 out of 1.00

SQL can be used to:

- A. Create database structures only
- B. Query database data only
- C. Modify database data only
- D. All of the mentioned ✔

The correct answer is:
All of the mentioned

Question 19

Correct

Mark 1.00 out of 1.00

You executed the following SQL statements in the given order:

CREATE TABLE ORDERS (ORDER_ID INTEGER(3) PRIMARY KEY, ORDER_DATE DATE, CUSTOMER_ID INTEGER(3));

INSERT INTO ORDERS VALUES (100,'2007-03-10',222);

ALTER TABLE ORDERS MODIFY ORDER_DATE NOT NULL;

UPDATE ORDERS SET CUSTOMER_ID=333;

DELETE FROM ORDER;

The DELETE statement results in the following error:

ERROR at line 1: table or view does not exist

What would be the outcome?

A. All the statements before the DELETE statement would be rolled back

B. All the statements before the DELETE statement would be implicitly committed within the session

C. All the statements up to the ALTER TABLE statement would be committed and the outcome of UPDATE statement would be rolled back

D. All the statements up to the ALTER TABLE statement would be committed and the outcome of the UPDATE statement is retained uncommitted within the session ✔

The correct answer is:
All the statements up to the ALTER TABLE statement would be committed and the outcome of the UPDATE statement is retained uncommitted within the session
